Reasons to Believe: The Origins of Life

Reasons to Believe Apologetics Series

Life instantaneously arose on Earth? Early in its history? In a complex form? In hostile conditions? Since this theory contradicts any possible naturalistic explanations, origin-of-life researchers are now looking beyond Earth for the answers. Their three possibilities are: alien visitation, an undiscovered law of physics or a transcendent Being that created life on Earth. Discover a testable scientific model that boldly predicts what future scientists will discover is the correct answer.

Joy at Work – Equipping Leaders in the Workplace

Part of the INJOY *Life@Work* Series – CCN's Marketplace Ministry Series

What is the purpose of our work? Is our workplace primarily a mission field where we seek through word and deed to carry out the Great Commission? Could it be that secular work is the primary mission or ministry to which God has called most of the people in your church?
