Barna Report: "Ministry
Mosaics: Teens and
Supernatural"

It's not news that young people experiment with life...

The bad news is their rampant interest in the dark side of the supernatural.

So, what's the good news? The good news is that this attraction to the dark side often reflects a deep hunger or spiritual curiosity.

Join CCN to investigate the eye-opening statistics regarding teen involvement in the supernatural and learn how parents, youth leaders and the church can respond to the spiritual needs of America's youth.

Give young people the answers
they really need.

According to The Barna Group, 73% of America's youth have engaged in at least one type of psychic or witchcraft-related activity, beyond mere media exposure or horoscope usage.
