Training for business and ministry leaders

with Dr. John Townsend

It doesn't have to be lonely at the top.

Effective leaders depend on key relationships to sustain them both personally and professionally.

So, how do you build a healthy circle of support that will enhance your vision and your goals?

This month, leaders in business and ministry are invited to join Dr. Townsend to gain skills for connecting, networking and establishing trust alliances with the kind of persons that promote the growth and health of both leader and organization.

Learn how to:

- Develop connections.
- Establish trust.
- Maintain a network.
- Discern positive and negative alliances.

Remember, you're not supposed to go it alone!
