How do *you* talk to kids?

Do you take time to prepare your delivery and develop your content? Or do you just put it on "auto pilot" and let the message work itself out... Afterall, they're just kids!

Don't be fooled! It's definitely not as easy as it looks to connect with kids' minds and hearts in a way that makes a lasting difference.

In Part 2 of this two-part series on **Children's Ministry Teaching Skills**, veteran expert David Staal helps children's ministry pastors and leadership teams gain the skills they need to effectively communicate the good news of Jesus with kids in **Early Childhood**.

Says Staal, "A few key skills will maximize the impact of a communicator's message on stage."

Learn to communicate with the youngest listeners in:

- An engaging, effective and authentic way.
- A way that makes a life-changing difference even in the youngest lives.

Next time you talk to kids, make it count!

Who Should Attend:

- Children's Ministry Pastors
- Leaders and Volunteers
